Span Ladder

How much can you hold in your head at once?

GRADE 2 | MEMORY | SHORT-TERM SPAN | WORKING MEMORY

THE STRATEGY · MAKE A PICTURE

Turn the list into a picture in your head. A ladder, an orange and a train is easier to remember if you see the orange riding the train up a ladder. Silly pictures stick better than sensible ones.

How to use this sheet

1. **Work with a parent or teacher.** One person reads, one person answers. The reader keeps this sheet; the student does not look at it.
2. **Read at one item per second.** Steady, flat voice. No grouping, no pauses — the chunking is the student's job, not the reader's.
3. **Two attempts at every rung.** Pass a rung by getting either attempt completely correct, in order. Then climb to the next.
4. **Stop after two failed rungs in a row.** That rung is today's ceiling. Write it on the ladder at the back and stop there.

Print once, slip into a plastic sleeve and write on it with a dry-erase marker — this sheet is built to be repeated every few weeks, not used once.

Part 1 — Digit span

Reader's page. The student has two attempts at every rung — tick the rung if either attempt is repeated perfectly, in the right order.

The rung number is how many digits are in the row.
Rung 5 means a five-digit row. Climbing one rung means holding one more digit.

1a — Forwards

Read the row aloud. The student repeats it in the same order.

RUNG	ATTEMPT 1	ATTEMPT 2	PASS
3	2 9 4	5 7 2	☐
4	3 6 5 2	6 7 3 9	☐
5	7 8 6 2 1	6 8 6 5 7	☐
6	9 2 9 6 7 9	1 2 6 5 8 1	☐

1b — Backwards

Same rules, but the student repeats the digits in reverse order. Backwards is the harder, more useful test — it is working memory rather than simple storage, so expect it to sit two rungs lower.

RUNG	ATTEMPT 1	ATTEMPT 2	PASS
2	2 3	2 5	☐
3	4 8 9	1 9 4	☐
4	1 5 8 2	1 8 7 9	☐

Part 2 — Word span

Words are harder than digits: there are far more of them to choose from. The strategy changes too — link the words into a quick mental picture or a silly sentence rather than chunking them. The rung number is how many words are in the list.

2a — Words in order

Each rung gives two different lists. Read Attempt 1; if the student does not repeat it perfectly, read Attempt 2. Either one correct passes the rung. Order counts.

RUNG		WORD LISTS	PASS
2	ATTEMPT 1	carpet · crayon	☐
	ATTEMPT 2	turtle · puddle	
3	ATTEMPT 1	shell · saddle · biscuit	☐
	ATTEMPT 2	hammer · parcel · balloon	
4	ATTEMPT 1	basket · sparrow · sandal · trolley	☐
	ATTEMPT 2	biscuit · apron · pepper · jacket	

Part 3 — Sentence span

Read each sentence once at normal speaking speed. The student repeats it word for word. One attempt per rung here, and the rung number is the step in difficulty, not a word count. This is the closest rung to real classroom listening — instructions, dictation and note-taking all sit here.

RUNG	SENTENCE	PASS
1	My sister lost her blue water bottle.	☐
2	We waited at the bus stop until the rain stopped.	☐
3	When the lights went out, Nina found a torch in the drawer.	☐
4	Ravi kept the shell he found at the beach inside a jar beside his bed.	☐

Colour in the rung you reached today, in a different colour each time you do this sheet. Come back in three weeks — the point is the climb, not the number.

Where this shows up

- Where did you feel your memory run out — was it holding the items, or saying them back?
- Name one thing this week you could turn into a picture instead of words: a shopping list, a diagram, the order of a process.

A span score is a snapshot of one skill on one day. It is not an assessment, a diagnosis or a measure of how clever anyone is. If you are worried about memory or attention, speak to a professional.
